Sign up for assessment

Welcome to these latest opportunities to use online Single Best Answer (SBA) and an Image Based Question formative assessment. Formative assessments are designed to support and improve learning. They are assessments FOR learning rather than OF learning.

You will be given your score at the end of each assessment you take. When the assessment finally closes to new candidates, you will also receive your ranking overall and your ranking against your national/international peers (please check your profile – there are a few of you saying you are Belgian!

To have a future, these in-training assessments need all those who use them to contribute to the question bank. The questions do not need to be difficult. They should just be about something at trainees of any level should know – from beginner to specialist. If you have experience of high stakes examinations, this knowledge puts you in a great position to both improve your knowledge/understanding and help your colleagues by creating questions of a similar standard.

Please use the link below to add at least 2 questions of each type.

When you are ready to complete an assessment click start and use the current password

#OMFSuems then follow the instructions on-screen.

Last 3 year's ITAs are reopened with the same password #OMFSuems

If you have any problems let me know. I have invited UK trainees to participate (in the hope it will give those taking Part 1 of the FRCS (OMFS) some useful practice and everyone else the chance to find their 'unknown unknowns'. If you know someone like that, give them a nudge.

These 5 assessments will close at midnight on at the end of July (unless there are requests to keep open for another week or two).

Best wishes,
Patrick Magennis

medartis®

PRECISION IN FIXATION

The OMFS Section of UEMS and EACMFS acknowledge the continuing support of Medartis for this project with an unconditional grant.

PS I realise those trainees who have completed their FRCS (OMFS) may not be keen to complete the assessments, but I plead with them to take the time to contribute questions. It is only by having a large question bank that this will continue. **Use it or lose it.**

Contribute questions – this is very important

Previously registered

If you have previously registered for the EIOMFA, you can use the same log-in at <https://omfsexam.examfolio.com> and skip to

Assessment Selection in these instructions

The image shows a login interface with a dark blue header. On the left, there is a 'Sign in' tab, and on the right, a 'New account' tab. Below the tabs are two input fields: 'Username' and 'Password'. Underneath the password field is a checkbox labeled 'Remember me'. A prominent green button with the text 'Log In' is centered below the fields. At the bottom left, there is a link that says 'Reset your password'.

Not registered

Go to link <https://omfsexam.examfolio.com> and click the 'new account' button.

The image displays a 'Candidate registration' form. At the top, there are 'Sign in' and 'New account' tabs. The main heading is 'Candidate registration'. Below this is an orange box containing the following text: 'Important for supervisors: This registration is only for registering candidates and not for supervisors. If you are a supervisor, please contact your organisation to create an invitation for you. Thank you.' Below the orange box are four input fields: 'User name', 'Email', 'Password', and 'Confirm password'. A green button labeled 'Continue' is positioned at the bottom of the form.

Register a log-in name and e-mail address. You will be sent a link to register for the assessment to this e-mail address.

Log-in to the website

Enter your details onto the form (it should already be populated with your e-mail address). The default nation is Denmark because this is where the software company are based.

Change the nation to your own nation.

Edit profile

Please fill out the details in the form below

Registration details

Exam: 2019 Medartis International OMFS In-Training Formative Assessment - Single Best Answer (SBA)
This is an assessment FOR training rather than OF training. Most of the questions have been written by trainees from across many nations. For the exam to have a future, it needs all candidates to submit at least two questions. If you have never submitted a question, please do so when you have completed this assessment. The questions range from basic OMFS aimed at those new to the specialty, to very difficult questions which will challenge even candidates aiming for their final training exam or the European Board exam in OMFS. The objective is for candidates to identify gaps in their knowledge or understanding, and have the opportunity to address them before undertaking a high-stakes exam.

Location: Medartis International In-Training Formative Assessment

Once registered decide when you would like to take your assessment

Your dashboard will then show you have registered for the assessment. You can choose a time to take the assessment which is convenient to you.

It would be best for you to find a time when you can be undisturbed.

Click start and use the assessment password

When you are ready to complete an assessment click start and use the password

#OMFSuems then follow the instructions on-screen.

All 2 of these exams have the same code/password

Set yourself a time limit (if you wish)

There is no time limit for either assessment, although your time will be noted. Recommendation is 2 hours maximum for the Single Best Answer assessment (SBA) and 30 minutes for the Image based questions.

Be careful to click only one answer

The software may let you pick more than one. If you pick more than one answer it will be marked wrong.

After you have completed the assessment

You can review your score by clicking results. You will get a graph comparing you to others at the same stage of training as you and overall.

When everyone has completed the assessment, I will provide a more detailed report.

Good luck

And please spread the word to your friends and colleagues home and overseas.
