NB – the default nation is Denmark (where the software is based) if you don't want to unleash your inner viking, please change to your own nation.

Select the Pre-Specialisation Exam and Frank Hölzle as your supervisor

Candidate registration, step 2 / 2

Check details and register

Step 1 / 2 **Step 2 / 2**

EU Citizen
Please select 'yes' if you are a citizen of the European Union

Years of training
If you are in a recognised training program please select the year of training. Select 'Not applicable' if you are not in a recognised training program.

Registration details

Exam: **EACMFS - UEMS Pre-Specialisation Exam**
In 2022 we will start the first Pre Specialization MCQ Assessment as a liaison project between EACMFS and UEMS OMFS Section & Board. It will be a Single Best Answer (SBA) formative assessment. Formative assessments are designed to support and improve learning as an exam FOR learning rather than OF learning. Your score will be provided at the end of each assessment. Candidates will also receive their overall ranking and their ranking against their national and international peers. The European Board Examination of Oral and Maxillofacial Surgery, which leads to the title of Fellow of the European Board of OMFS, is a regular method of demonstration of specialist knowledge (it is not accessible to pre-specialist trainees). This

Next, log-in to the website with your e-mail and your new password and select either the European or the Asia/Oceania Pre-Specialisation Exam – top left. This screenshot is from the original 2022 exam but you should only see the assessments for the current year. If you are looking a long time before the assessment, you will see all the other in-training assessments (which you are very welcome to use too).

Find in page Highlight All Match Case Match Diacritics Whole Words

Details of the exam timing will be visible on the assessment registration page.

Outside August and September of each year, there are a large range of in-training formative assessment available. These are suspended in the run-up to the Pre-Specialist Assessment but are available for the rest of the year.

If you have any problems or questions, please contact president@omfsuems.eu

Adding Questions to the Question Bank

Writing questions is a very good way of revising. There is a generic log-in for international trainees and another one for UK based trainees. Adding questions through these generic routes is anonymous, so you can't be awarded any CME points.

If you contact the website and ask for your own log-in, you can received 1 ECMEC® for every 5 questions you add.

<https://omfs.examfolio.com> is the adding questions website (it has a dot between OMFS and EXAM) whereas the assessment website does not

For UK Trainees please use

log-in `ukspecialtytrainees` (all lower case)

password `OMFSuems` (case sensitive)

For international OMFS Trainees please use

log-in `omfstraineesinternational` (all lower case)

password `OMFSuems` (case sensitive)

Please don't change the e-mail address of these accounts!!!

General Advice for Adding Questions

What I want most are questions which point people to gaps in their knowledge and how to fill them. Not 'tricksy' questions, rather questions that EVERYONE should know.

Please remember

1. Write questions which would test trainees of any level to help people to revise the 'right' topics/answers.
2. Give a very clear title – this is used to select question for the exam
3. Avoid 'negative' questions i.e. pick the wrong answer, which is not true, choose the least likely
4. Focus on 'important' issues i.e. something that it is valuable to know rather than a 'rare' fact.
5. List the options in alphabetical order – this avoids 'order bias'.
6. Include (in the comment box) a short rationale for your answer with a link to a free resource (open access paper or website). Only a sentence or two.

A good way to write four questions for the effort of 1 is to write four questions stems for the same 4 answers – if you do this write 1 of 4 and 2 of 4 etc in the title.

Why limit yourself to 5 questions!!! Register for your own account.

You can have as much CME as you want – fill your boots.
