Section and Board of Oro-Maxillofacial Surgery

Dear Colleagues,

In 2022 we will start the first **Pre Specialization MCQ Assessment** as a liaison project between EACMFS and OMFS Section and Board of UEMS.

It will be a Single Best Answer (SBA) formative assessment. This assessment is designed to support and improve learning as an exam FOR learning rather than OF learning. Your score will be provided at the end of each assessment. Candidates will also receive their overall ranking and their ranking against national and international peers.

The European Board Examination of Oral and Maxillofacial Surgery (EBOMFS) is popular with specialists in OMFS (it is not accessible to pre-specialist trainees). The MCQ part of the exam is a worry for some candidates, particularly as there has been no opportunity to practice until now. The plan is to include 10% of EBOMFS exams in the formative assessment, which should reassure future EBOMFS candidates of the level.

The Formative exam will be 50 questions over 90 minutes covering the complete curriculum of OMFS. The European Association of Cranio-Maxillofacial Surgeons thanks **Medartis** for supporting this project through an unconditional grant.

The first **Pre- Specialization MCQ Assessment** will take place online on Thursday, 8th September 2022 - 8 p.m. – 9.30 p.m. CET.

Further details will follow in due course
